This diagram illustrates the assembly of a mechanical component, likely a door or panel, showing the relationship between various parts. The main assembly consists of a large rectangular panel (1) with two hinged doors (2) attached to its sides. The doors are shown in an open position. The panel has a series of small holes along its edges, possibly for mounting or ventilation. The doors are connected to the panel via hinges (3) and are supported by a complex internal mechanism (4) that includes gears (5) and shafts (6). The diagram also shows various fasteners, including screws (7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19) and bolts (20), which are used to secure the assembly. The parts are numbered 1 through 20, corresponding to the list provided in the adjacent table.
